What about AI & Tech jobs?

Dreams of big salaries

Tech & AI careers for neuroscience PhDs and postdocs (with a neuro-focused lens)

BraiNets Day: **'Is There A Life Outside Academia After A Phd/Postdoc?'**

Shailesh Appukuttan

Marseille · October 2026

Slide design: Claude (thanks Andrea!)

Quick poll: who is in the room?

P1

Computational / AI

models, dynamics, information theory, Bayesian inference, ML

P2

Neural data
any modality

EEG/MEG/iEEG, spikes, MRI, eye tracking, signal processing

P3

Experimental / behavioural

task design, psychophysics, behaviour, statistics

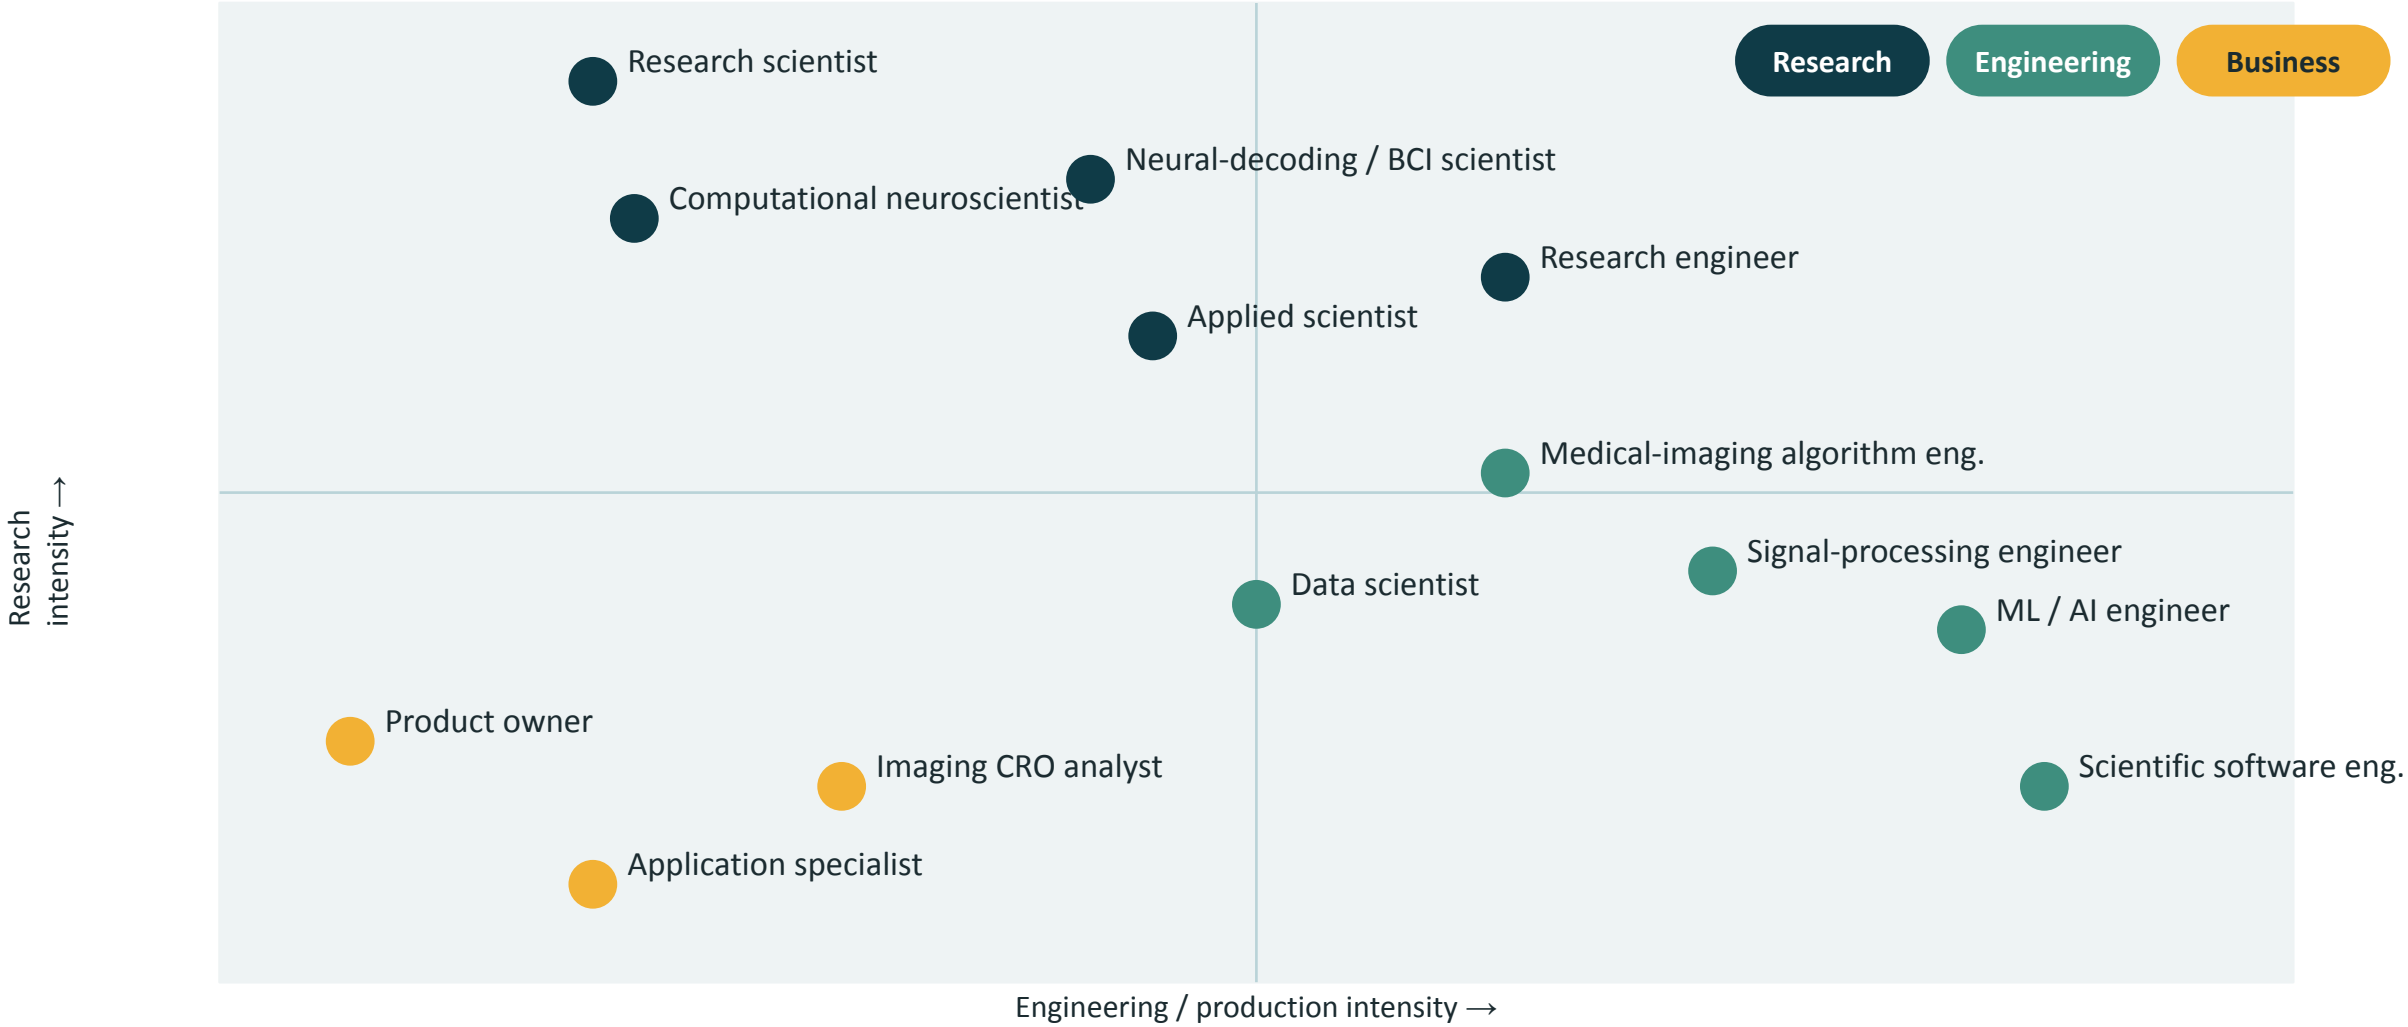

→

Field switchers

any background, want to leave neuroscience

Hands up for your profile…

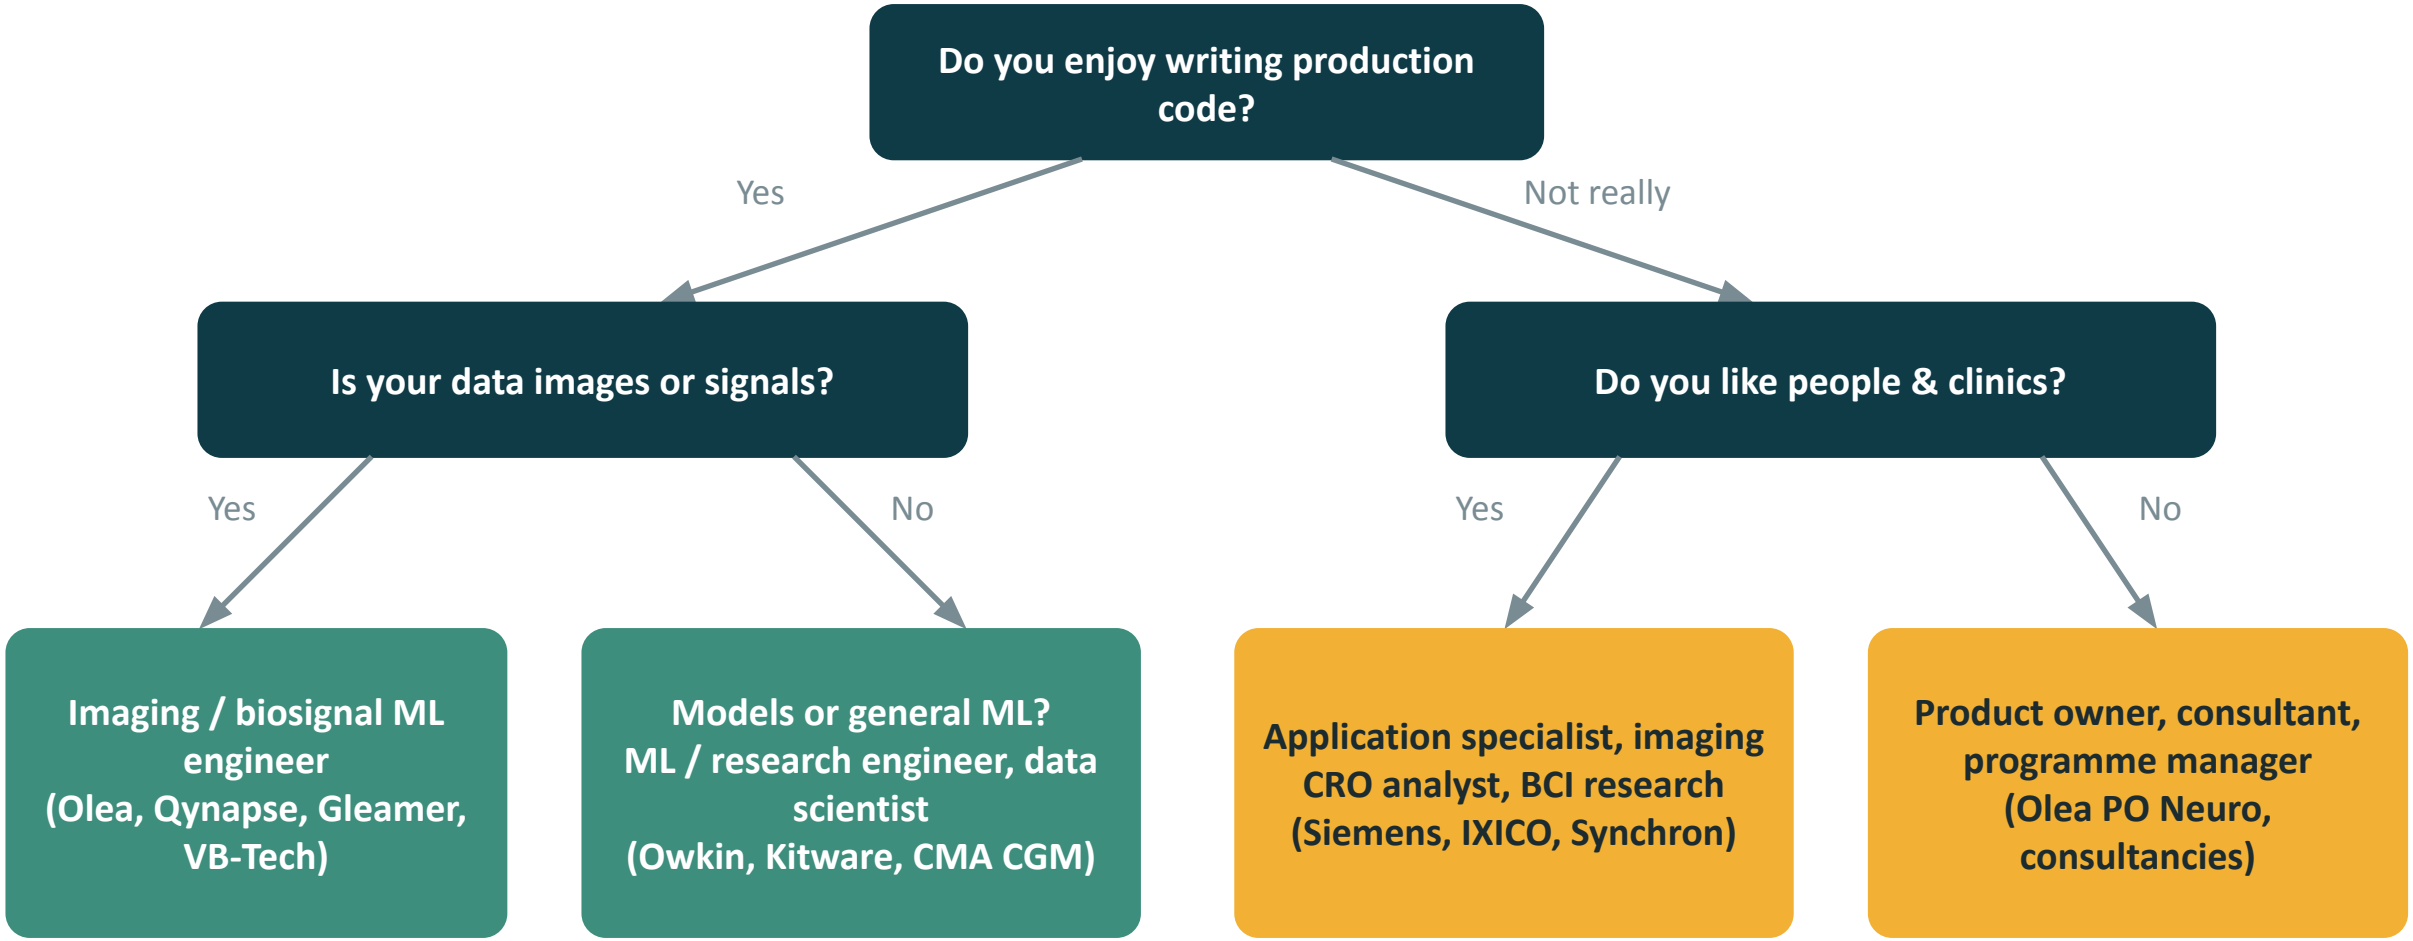

Roles differ both in engineering load and in 'science'

Which roles fit your background?

Role	P1 Computational	P2 Neural data	P3 Experimental
Medical-imaging algorithm engineer	Upskill	Direct	Upskill
Signal-processing / biosignal ML	Upskill	Direct	Substantial
Neural-decoding / BCI scientist	Direct	Upskill	Substantial
Data scientist	Direct	Direct	Upskill
ML / AI engineer	Upskill	Upskill	Substantial
Scientific software engineer	Direct	Upskill	Substantial
Research scientist (industry lab)	Upskill	Upskill	Substantial
Application specialist / imaging CRO	Upskill	Direct	Direct
UX / user researcher	Upskill	Upskill	Direct
Quantitative researcher (finance)	Direct	Upskill	Substantial
Product owner / programme manager	Upskill	Direct	Direct

Which door fits you? A quick decision path

Translate your skills, and close the real gaps

Academic → industry wording

Neural decoding	BCI / biosignal ML
MRI segmentation & quantification	Medical-image algorithms
Population dynamics	Time-series & state-space modelling
Experimental design & statistics	A/B testing, clinical & biomarker analytics
Lab code & pipelines	Scientific software, reproducible ML

Gaps and time to close

Git workflow, testing, code review	Weeks
PyTorch & modern DL (if missing)	Weeks–months
Coding interviews / take-homes	Weeks–months
MLOps, cloud, deployment	Months
MDR / ISO 13485: literacy vs ownership	Weeks / years
Leading production ML teams	Substantial experience

'Neuro' + AI + tech: different job markets

1 NeuroAI / brain-inspired AI

Brain encoding & decoding models, model–brain comparison, neuromorphic chips

Meta FAIR Brain & AI · AMI Labs · DeepMind · Allen · Flatiron · Innatera

Very small · very selective

2 AI on brain & biomedical data

MRI & biosignal analysis, digital biomarkers, clinical prediction, imaging CROs

Olea · VB-Tech · Median · Qynapse · Gleamer · TheraPanacea · Volta · icometrix

Largest neuro-relevant market

3 Neurotechnology & BCI

Implants, wearables, stimulation, neural interfaces

Synchron · Precision · Flow · Wyss Center · Cortec

Small, growing · mostly abroad

* General tech & AI

Data science, ML engineering, LLMs, software, quant, product, consulting

CMA CGM · Thales · Amadeus · Mistral · Owkin · CFM · consultancies

Largest market · open to switchers

Sources: Meta AI blog 2025; Synchron/Precision/Paradromics ads; Gleamer, Qynapse, Olea ads; CMA CGM, Mistral, CFM pages – see organisation slides

Newsworthy Research = Fewer Career Opportunities

What makes the news

- Brain-encoding foundation models (Meta TRIBE v2, Mar 2026)
- Typing decoded from MEG/EEG (Brain2Qwerty – preprint)
- Implanted BCIs entering larger trials (Synchron, Paradromics)
- Neuromorphic chips and 'brain-like' AI start-ups

Few seats · top-venue publications · strong DL engineering

Where most actually get hired

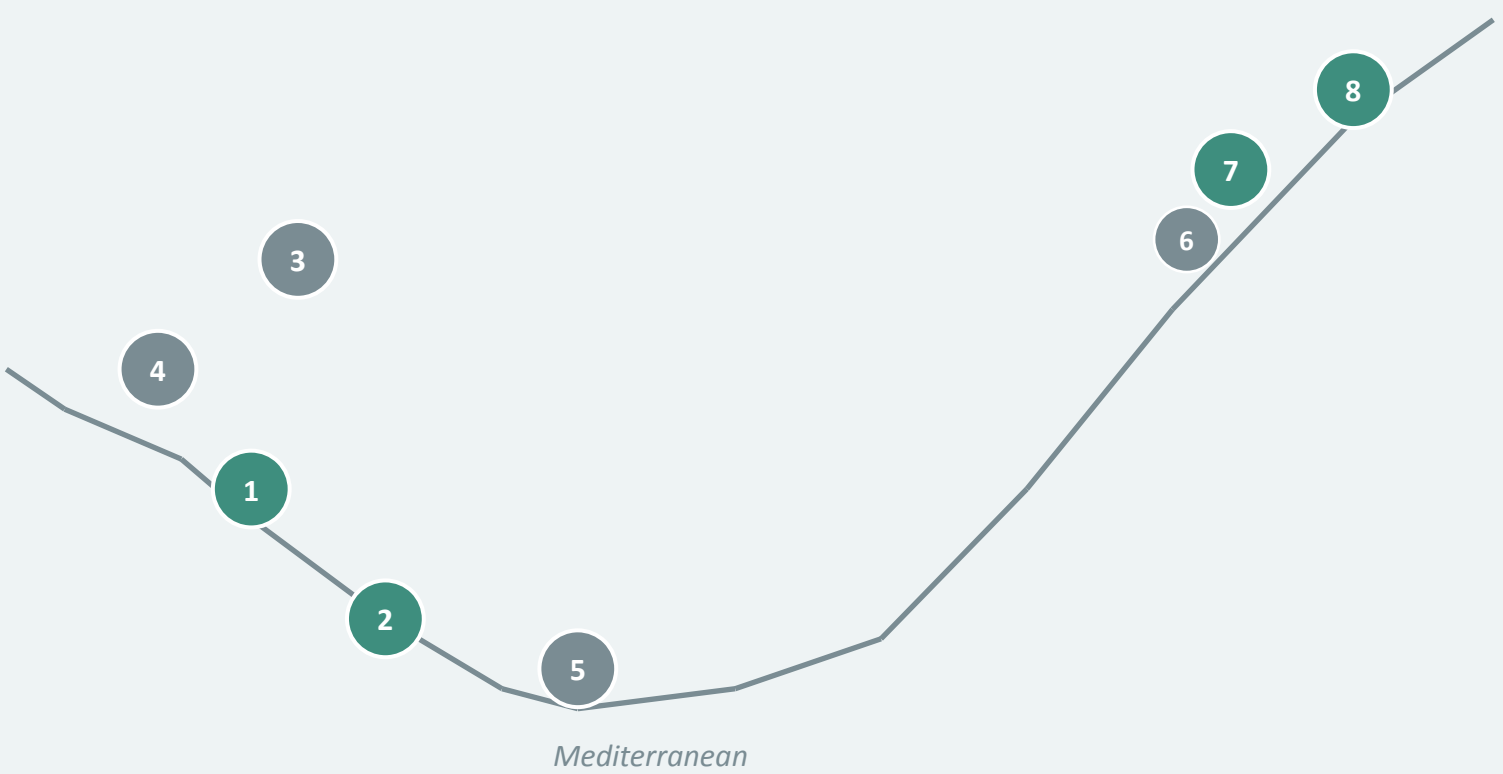

- Medical-imaging algorithm & software roles
- Biosignal ML (EEG, cardiac, EMG, sleep)
- Data science and consulting (any sector)
- Scientific software, application specialist, product owner

More roles · PhD valued · skills transfer directly

Sources: Meta FAIR TRIBE v2 (26 Mar 2026, secondary source); R&D World 30 Oct 2025; research log

PACA: what is actually here

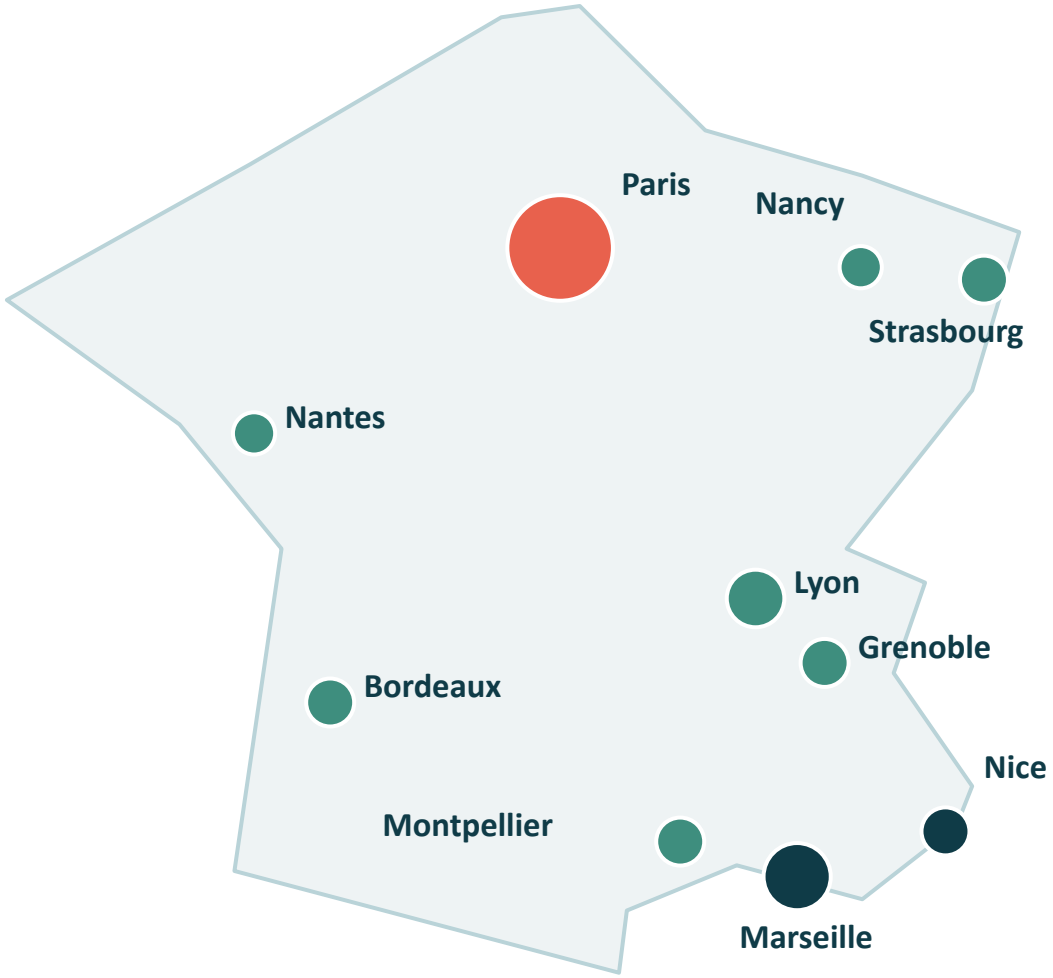

Green: directly relevant · Grey: generic data/industrial ·

1. Marseille: VB-Tech · Volta Medical · CMA CGM · Inclusive Brains · consultancies
2. La Ciotat / Gémenos: Olea Medical (MRI) · Thales DIS
3. Aix: Dassault Systèmes · Rousset: STMicro (restructuring)
4. Marignane: Airbus Helicopters
5. Toulon: Naval Group
6. Cannes: Thales Alenia Space
7. Sophia Antipolis: Median Technologies · Amadeus · SAP · Axis · Arm · NeuroPin
8. Nice: Therapixel (imaging AI)

France: Paris dominates, with useful regional hubs

Paris (most jobs)

Neuro & health AI: Qynapse · Gleamer · TheraPanacea · Raidium · Ad Scientiam · neuroClues · BioSerenity · Nabla

AI labs & tech: Meta FAIR · AMI Labs · Mistral · Kyutai · Hugging Face · Owkin · Dataiku · Contentsquare

Quant: CFM · QRT

Lyon

Kitware Europe (scientific & medical software)

Grenoble

NAVER LABS Europe (AI research) · Pixyl now part of Gleamer

Strasbourg · Nancy/Nantes

BrainTale (brain-MRI biomarkers) · Banook/Keosys (imaging CRO)

Bordeaux · Montpellier

Synapse Medicine (health AI) · Intrasense (imaging software)

Sources: Radiology Business Mar 2025; WTTJ ads; Maddyness 3 Sep 2025; Intrasense AMF filing 19 Jun 2026

International: where the NeuroAI and BCI seats are

United States

Synchron · Precision Neuroscience · Paradromics · Neuralink · Beacon Biosignals · Allen Institute

On-site; US work visa needed; highest pay

United Kingdom

Google DeepMind · Brainomix · IXICO (imaging core lab)

Visa needed for non-UK citizens

Europe (EU + Switzerland)

icometrix (Leuven) · Wyss Center (Geneva) · Flow Neuroscience (Malmö) · Cortec (Freiburg) · Neuroelectrics, INBRAIN, Bitbrain (Spain) · ONWARD (NL/CH) · Innatera (Delft)

No visa for EU citizens in the EU; Swiss permit needed in Geneva

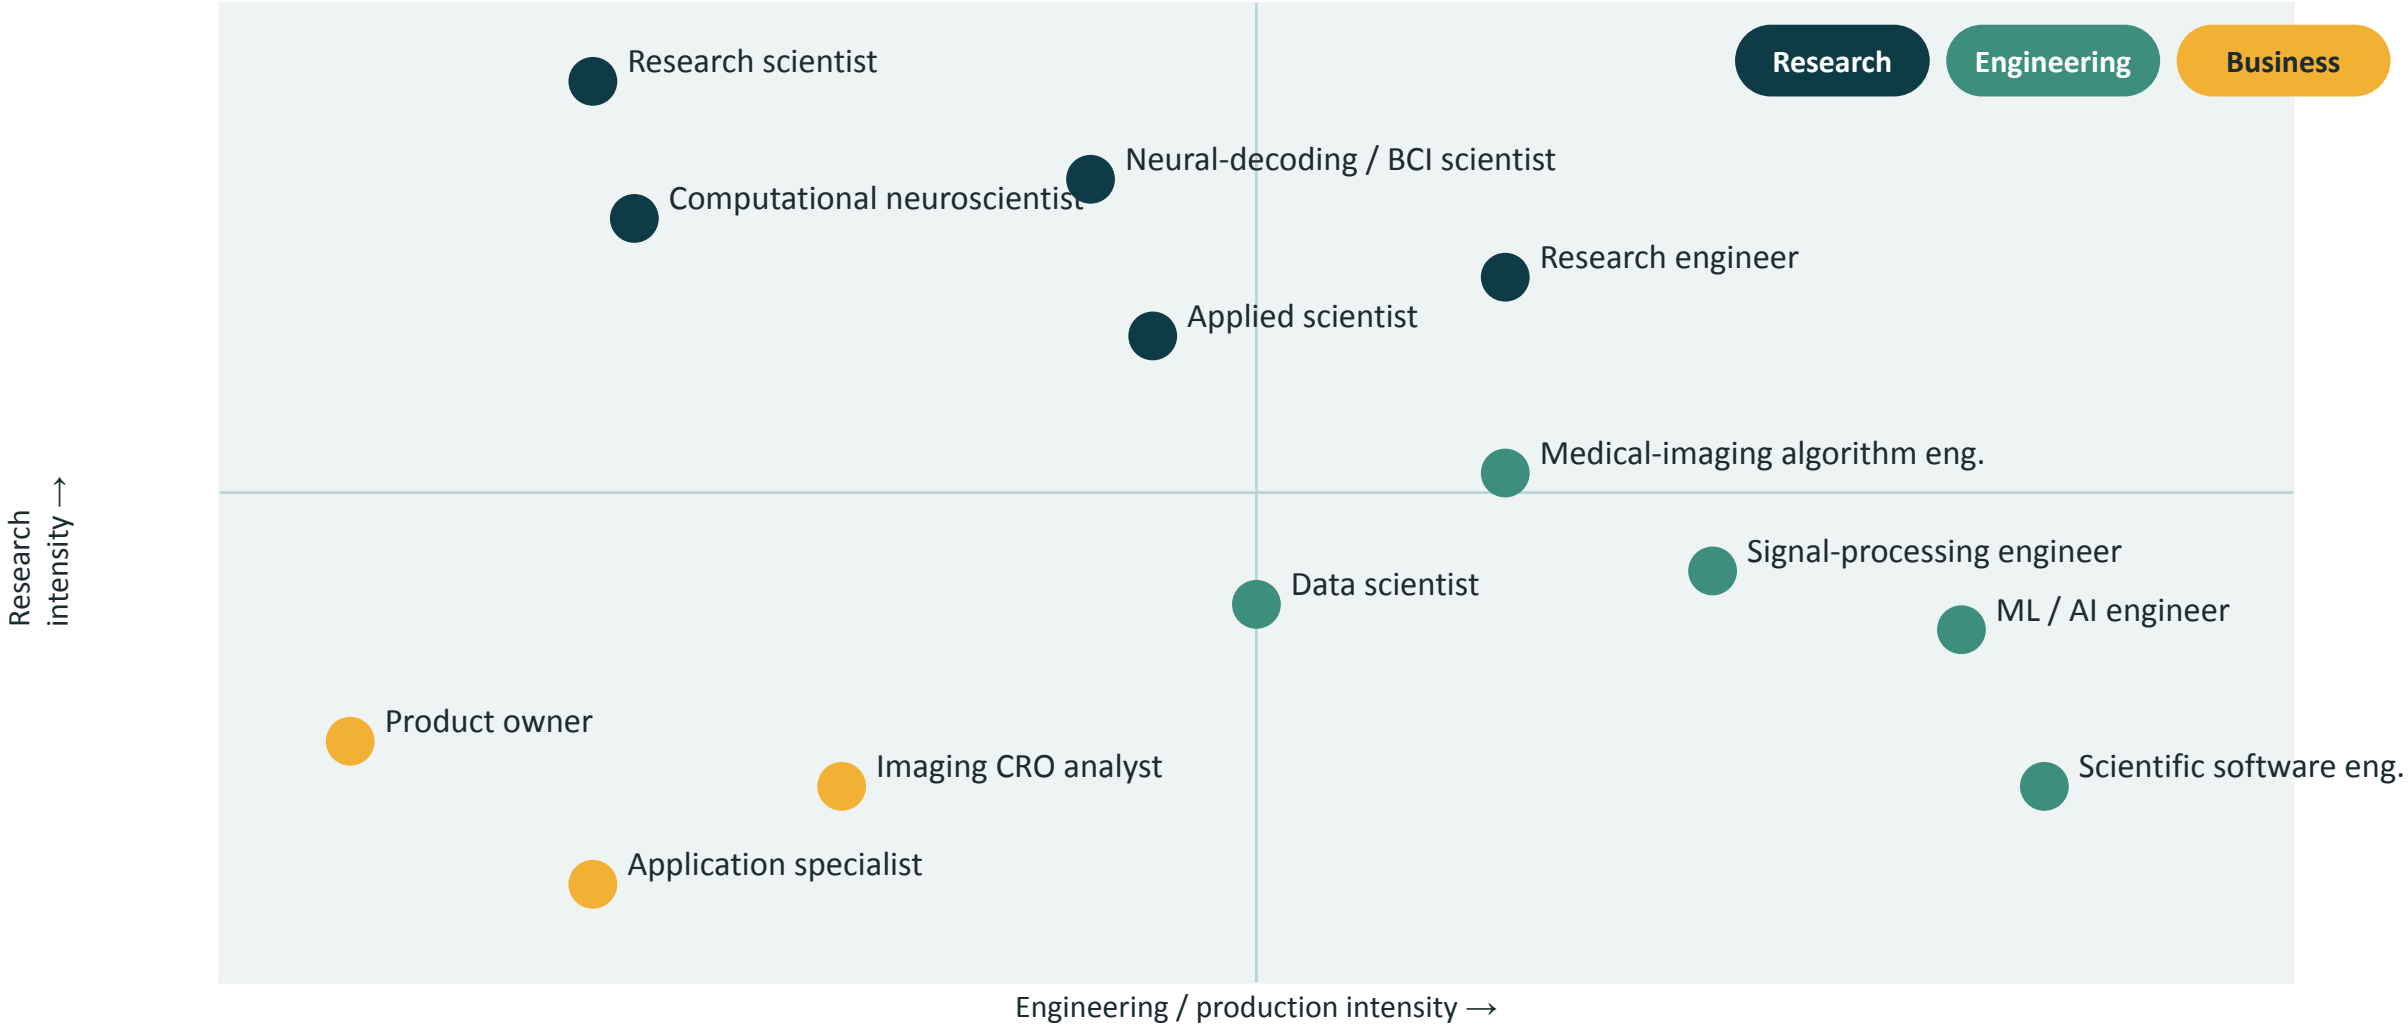

Sources: ClinicalTrials.gov NCT07446114/NCT07533903; GE HealthCare PR 10 Sep 2025; Precision, Paradromics, Neuralink ads

Four real job ads, side by side

	VB-Tech	Olea Medical	Gleamer	Precision Neuroscience
Role	Signal-processing engineer	Product Owner (Neuro)	AI Engineer	Staff ML Engineer/Scientist
Where	Marseille	La Ciotat	Paris	New York / Santa Clara
PhD	Not stated	Not required	Required	Required
Experience	Not stated	Product experience	> 3 years	Senior ('Staff')
Key skills	Source localisation, signals	Neuro imaging, Agile, specs	PyTorch, self-supervised, 3D	Decoding, DSP, real-time DL
Salary	Not disclosed	Not disclosed	Not specified	USD 176–220k base

Sources: INS job page; Olea Medical PDF Apr 2025; Welcome to the Jungle (Gleamer); Precision careers – all checked 2026-10-08

Roles differ both in engineering load and in 'science'

Four real job ads, side by side

	VB-Tech	Olea Medical	Gleamer	Precision Neuroscience
Role	Signal-processing engineer	Product Owner (Neuro)	AI Engineer	Staff ML Engineer/Scientist
Where	Marseille	La Ciotat	Paris	New York / Santa Clara
PhD	Not stated	Not required	Required	Required
Experience	Not stated	Product experience	> 3 years	Senior ('Staff')

Salary by role and location

Gross annual pay, €k.

Location	Postdoc	Data scientist, entry	Data scientist, median	Data scientist, senior
Marseille	27–40	37–44	51	64
France	27–40	37–48	51–54	68
EU: Germany	59–67	57	65–72	80–94
Switzerland	86–118	109	123–148	144–174
UK	42–55	48	63–76	86–94
US	54–66	57–73	102	119–162

French specifics you should know

CIR 'jeune docteur'

Abolished Feb 2025; not restored in 2026 budget

JEI status

Maintained – start-ups keep R&D tax advantages

Cadre & Syntec

Most PhD hires are cadre; Syntec common in tech/consulting

Trial period

Cadre: up to 4 months, renewable once if agreement allows

Non-EU colleagues

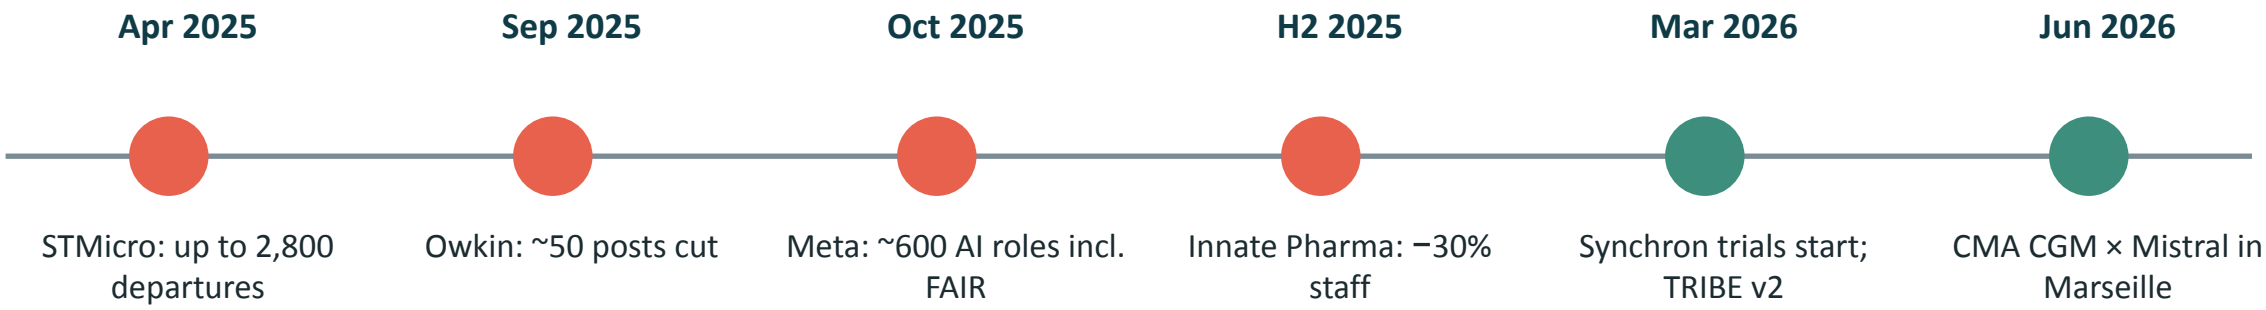

Talent passport: researcher (hosting agreement) or qualified employee (salary threshold) – verify on service-public.fr

Doctorate recognition

Valued in R&D firms; less so in generic IT – say 'R&D experience', not 'student'

Sources: Option Finance 1 Apr 2025; Maddyness 4 Feb 2026; service-public.fr (passeport talent); AN amendment rationale Nov 2025

Hype vs hiring: 2025–26 was not all growth

Anecdotal transitions

Neuroimaging PhD → founder

NeuroPin, Sophia Antipolis

Neuroscientist → founder

Inclusive Brains, Marseille

Inria research director → Meta

EMG decoding, Reality Labs Paris

CNRS researcher → Meta FAIR

Brain & AI team, Paris

Sources: research log; FastForward (NeuroPin); arXiv 2506.19141; Allianz Trade interview (Inclusive Brains)

Academia vs Industry Comparison

	Academia	Industry
Research freedom	You set the agenda	Roadmap set by product / clients
Publishing	Expected	Possible in labs; often restricted (IP)
Contract	Short contracts until tenure	Mostly permanent (CDI) – but layoffs exist
Pay (France)	Post-doc ~€27–40k gross	Data / ML roles ~€40–60k+ gross
Pace	Long projects	Weeks-to-months iterations
Seniority	Counted in years since PhD	Counted in shipped work; postdoc may count

Sources: research log (Meta, Owkin, ST, Innate)

Olea Medical

Marseille & PACA La Ciotat · 30 km from Marseille · Canon Medical group

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2008	**~80–200 (estimate)**	**Canon Medical (since 2015)**	**French + fluent English**	**On-site, La Ciotat**

WHAT THEY DO

MRI post-processing software (perfusion, diffusion) used by radiologists worldwide, with a dedicated neuro product line.

WHAT THEY OFFER PEOPLE LIKE US

R&D algorithm & software engineering, product owner (neuro), product management, application specialists, regulatory, internships.

SKILLS THEIR ADS ASK FOR

Python · Deep learning (U-Net) · MRI / image processing · Registration · DICOM · ISO 13485 / IEC 62304

A RECENT AD

Product Owner – Neurologie (CDI) · Apr 2025 · La Ciotat

Your angle: MRI physics, perfusion/diffusion/fMRI analysis and clinical neuro knowledge map onto Olea's neuro modules and product roles.

How to apply

- Watch the job-ad PDFs posted on the Olea Medical website
- Ads ask for applications by email to their HR – a speculative application is reasonable
- Pitch: MRI / neuro knowledge + product or software skills

GOOD TO KNOW

6-month R&I internships (e.g. deep-learning tumour segmentation) in 2025; 'Best Places to Work' certified.

↗ olea-medical.com

Good fit for: **P1** **P2** **P3**

Sources: Olea Medical job ads (Apr 2025) · research 8 Oct 2026 · verified 8 Oct 2026

VB-Tech (Virtual Brain Technologies)

Marseille & PACA Marseille · Timone campus · INS / AMU spin-off

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
~2021	< 10	INS/AMU spin-off · seed 2025	French + English	On-site / hybrid, Marseille

WHAT THEY DO

BrainXplore: a patient-specific digital twin of the brain (MRI + SEEG + network models) to plan epilepsy surgery; built on The Virtual Brain and the EPINOV trial.

WHAT THEY OFFER PEOPLE LIKE US

Small Series-A team: signal processing, computational modelling, scientific software; close links with INS and AP-HM.

SKILLS THEIR ADS ASK FOR

Python · FreeSurfer / FSL / MRtrix · SEEG / MEG / EEG · Neural mass models · Bayesian inference · C++ (plus)

A RECENT AD

Neuroimaging Engineer (VB-Tech | INS) · seen 2026 · Marseille

Your angle: Almost one-to-one with a systems-neuro PhD: MRI/SEEG pipelines, whole-brain (TVB) modelling and Bayesian inference are the product.

How to apply

- Job ads appear on the INS website (ins-amu.fr/jobs)
- Easiest door: a research collaboration or seminar via INS
- Pitch: SEEG/EEG, source localisation, network modelling

GOOD TO KNOW

Ads say 'PhD appreciated'. CE marking targeted 2027 – early-stage, small team, high learning.

↗ ins-amu.fr/jobs

Good fit for: **P1** **P2**

Sources: INS job page; Le Journal des Entreprises 2026 · research 8 Oct 2026 · verified 8 Oct 2026

Median Technologies

Marseille & PACA Sophia Antipolis · listed company

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2002	**~210 (2025)**	**Listed (Euronext Growth)**	**French + English**	**–**

WHAT THEY DO

Two businesses: an imaging CRO (iCRO) analysing scans in oncology drug trials, and eyonis, AI software for early cancer detection on CT.

WHAT THEY OFFER PEOPLE LIKE US

Imaging scientists, AI engineers, image analysts, clinical project managers – including roles that need imaging rigour more than coding.

SKILLS THEIR ADS ASK FOR

Medical imaging · Clinical-trial imaging · GCP · Statistics · Quality standards · French + English

A RECENT AD

Gestionnaire d'images (CDD 18 months) · 26 Sep 2026 · Valbonne

Your angle: Quantitative imaging, reader studies and trial endpoints transfer to iCRO imaging science and eyonis validation.

How to apply

- Careers page: mediantechnologies.com/careers
- Image-analyst and project roles suit imaging people without heavy coding
- Oncology, not neuro – same imaging skills

GOOD TO KNOW

eyonis LCS: FDA clearance Feb 2026, CE mark Jul 2026; €50M raised Jun 2026; record iCRO backlog.

↗ mediantechnologies.com/careers

Good fit for: **P1** **P2** **P3**

Sources: Median Technologies releases (Jan & Jul 2026) · research 8 Oct 2026 · verified 8 Oct 2026

CMA CGM – Data & AI

Marseille & PACA Marseille · group headquarters

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
1978	**~6,000 at Marseille HQ**	**Private, family-controlled**	**English + French**	**–**

WHAT THEY DO

Global shipping and logistics group running a large AI programme, including MAIA, an agentic-AI platform built with Mistral AI (launched June 2026).

WHAT THEY OFFER PEOPLE LIKE US

Data scientists, data/AI engineers, data-innovation project managers; internships and apprenticeships in data and AI.

SKILLS THEIR ADS ASK FOR

Python / PyTorch · LLMs, RAG · Cloud & MLOps · SQL · Power BI · Statistics

A RECENT AD

Data & AI Engineer – Cybersecurity Innovation · Jun 2026 · Marseille

Your angle: ML, statistics and time-series pipeline skills transfer to operations, energy-performance and generative-AI projects.

How to apply

- Group job site: jobs.cmacgm-group.com (filter: Marseille, Data)
- Internship and apprenticeship ads in data science and AI
- Good fit for anyone leaving neuroscience for general AI

GOOD TO KNOW

€100M Mistral partnership: ~20 Mistral engineers in Marseille; MAIA rolled out to ~80k staff (Jun 2026).

↗ jobs.cmacgm-group.com

Good fit for: **P1** **Switch**

Sources: CMA CGM job site; ActuIA (Jun 2026) · research 8 Oct 2026 · verified 8 Oct 2026

Volta Medical

Marseille & PACA Marseille

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2016	**100+**	**VC-backed (>€70M raised)**	**English**	**Hybrid**

WHAT THEY DO

AI software that reads heart electrograms in real time to guide atrial-fibrillation ablation – biosignal machine learning in the operating room.

WHAT THEY OFFER PEOPLE LIKE US

Software and ML engineers, field technical engineers, field clinical specialists (incl. internships and apprenticeships).

SKILLS THEIR ADS ASK FOR

Python / PyTorch · Signal processing · Time-series DL · Model evaluation · Git, CI/CD, Docker · MLOps (plus)

A RECENT AD

Lead Data Scientist (CDI, hybrid) · seen 2026 · Marseille

Your angle: Electrophysiology (EEG/LFP/spikes), time-series deep learning and clinical-study design transfer directly to electrogram AI.

How to apply

- Ads on Welcome to the Jungle (company: Volta Medical) and their Lever page
- Field clinical roles suit experimentalists comfortable in clinics
- Pitch: electrophysiology signals transfer from brain to heart

GOOD TO KNOW

Lead Data Scientist ad requires a PhD. ML internship (graph neural networks) and apprenticeships also advertised.

↗ welcometothejungle.com → Volta Medical

Good fit for: **P1** **P2** **P3**

Sources: Welcome to the Jungle / Lever ads · research 8 Oct 2026 · verified 8 Oct 2026

Therapixel

Marseille & PACA Nice

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2013	**~60 (2026 est.)**	**VC-backed (€15M Series B)**	**–**	**–**

WHAT THEY DO

MammoScreen: FDA-cleared AI that helps radiologists read mammograms; deployed in the US, including at Mayo Clinic.

WHAT THEY OFFER PEOPLE LIKE US

Deep-learning research engineers, data management, clinical and regulatory roles.

SKILLS THEIR ADS ASK FOR

Deep learning · Medical imaging · Reader studies · Clinical validation · Regulatory (FDA/CE)

A RECENT AD

No live ad found in Oct 2026 – apply speculatively

Your angle: Deep learning on medical images, observer studies and validation statistics map directly from neuroimaging ML PhDs.

How to apply

- Check therapixel.com for openings; set a LinkedIn alert
- Inria spin-off: Inria networks are a natural route
- Pitch: medical-imaging deep learning

GOOD TO KNOW

No live ad found in Oct 2026 – speculative application; US expansion (Chicago office, 150+ US sites).

↗ therapixel.com

Good fit for: **P1** **P2**

Sources: CB Insights; Revelio Labs (estimates) · research 8 Oct 2026 · verified 8 Oct 2026

Thales – Provence sites (DIS)

Marseille & PACA La Ciotat / Gémenos

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
– (ex-Gemalto)	~600 at La Ciotat (2020)	Thales (listed)	French + good English	–

WHAT THEY DO

Digital identity and security (biometrics, smart cards, embedded security) at the former Gemalto sites near Marseille; part of the Thales group.

WHAT THEY OFFER PEOPLE LIKE US

Embedded-AI and data engineers, software and cybersecurity engineers, many apprenticeships; Thales also runs the cortAIx AI accelerator.

SKILLS THEIR ADS ASK FOR

Python · Kubernetes · AWS / GCP · Terraform · Linux, networking · Agile

A RECENT AD

Site Reliability Engineer – Digital Identity & Security · Jun 2026 · La Ciotat

Your angle: Biometrics, pattern recognition and rigorous testing transfer – but local roles are mostly cloud, security and hardware.

How to apply

- Group careers site: careers.thalesgroup.com (filter: Gémenos / La Ciotat)
- Also listed on France Travail and Indeed
- French usually expected; some roles need clearance

GOOD TO KNOW

Group plans >9,000 hires in 2026; data/AI roles at these sites are rare. Some roles need clearance.

↗ careers.thalesgroup.com

Good fit for: **P1** **Switch**

Sources: France Travail; Thales releases · research 8 Oct 2026 · partly unverified

Airbus Helicopters

Marseille & PACA Marignane

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
– (Airbus division)	12,500 at Marignane	Airbus SE (listed)	French + English	On-site, some flexibility

WHAT THEY DO

Helicopter manufacturer near Marseille airport; engineering includes flight-data analytics, vibration/health monitoring and human factors.

WHAT THEY OFFER PEOPLE LIKE US

Data scientists and analysts, signal-processing and human-factors engineers, apprenticeships.

SKILLS THEIR ADS ASK FOR

Python / R / SQL · PySpark · scikit-learn / PyTorch · Statistics · Palantir Foundry · Human factors

A RECENT AD

Data Scientist (Market Execution) · seen 2026 · Marignane

Your angle: Human-factors and cockpit-ergonomics roles fit cognitive/psychophysics PhDs; time-series skills fit predictive maintenance.

How to apply

- Airbus careers site (filter: Marignane)
- Human-factors roles can suit cognitive scientists
- French usually expected; export-control roles may need nationality

GOOD TO KNOW

Ads state 'positions require a security clearance'. Internships and CIFRE theses on ML robustness exist.

↗ airbus.com/careers

Good fit for: **P1** **P2** **P3**

Sources: Job aggregators (2026) · research 8 Oct 2026 · partly unverified

Amadeus

Marseille & PACA Sophia Antipolis · large R&D site

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
1987	**>4,200 in Sophia**	**Amadeus IT Group (listed)**	**English**	**Hybrid**

WHAT THEY DO

Travel-technology leader: data science for pricing, recommendation and operations behind airline and hotel systems.

WHAT THEY OFFER PEOPLE LIKE US

Data scientists, ML and software engineers; internships; English-friendly international teams.

SKILLS THEIR ADS ASK FOR

Python · SQL · PySpark · Machine learning at scale · Cloud · Statistics

A RECENT AD

Internship – Data Scientist · 11 Sep 2026 · Sophia Antipolis

> **Your angle:** Large-scale behavioural and choice data, A/B testing and predictive modelling map onto computational-neuro statistics.

How to apply

- Amadeus careers site (filter: Sophia Antipolis)
- Internships via JobTeaser
- Pitch: statistics + Python + large data

GOOD TO KNOW

Very international site, English working language; ads ask Master's – the PhD is a plus, not a gate.

↗ amadeus.com → Careers

Good fit for: **P1** **Switch**

Sources: JobTeaser; TourMaG · research 8 Oct 2026 · partly unverified

Qynapse

France · Paris (+ US, Canada)

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2015	~20–25	Private (CATI spin-off)	English + French	Some roles remote

WHAT THEY DO

QyScore: FDA/CE-cleared AI that measures brain atrophy and lesions on MRI for multiple sclerosis, Alzheimer's and Parkinson's – in clinics and drug trials.

WHAT THEY OFFER PEOPLE LIKE US

Neuroimaging scientists, deployment / support engineers, clinical-trial imaging roles.

SKILLS THEIR ADS ASK FOR

MRI segmentation · Volumetry · Image processing · Clinical trials · DevOps · Application support

A RECENT AD

Senior Image Processing Engineer · seen 2026 · Paris

Your angle: Direct fit: MRI segmentation and volumetry, MS lesion and atrophy biomarkers, longitudinal statistics, trial endpoints.

How to apply

- Ads on Welcome to the Jungle (company: Qynapse)
- Neuroimaging biomarker experience is directly relevant
- Small team: networking at neurology/imaging meetings helps

GOOD TO KNOW

Small team, few openings; also clinical application specialist roles (EMEA). Active in Alzheimer's trials.

↗ welcometothejungle.com → Qynapse

Good fit for: P1 P2 P3

Sources: Welcome to the Jungle · research 8 Oct 2026 · verified 8 Oct 2026

Gleamer

France · Paris

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2017	120+	RadNet / DeepHealth (2026)	–	–

WHAT THEY DO

Radiology AI for X-ray, CT, mammography and – since buying Pixyl and Caerus in 2025 – MRI; acquired by RadNet / DeepHealth (deal announced Mar 2026).

WHAT THEY OFFER PEOPLE LIKE US

AI engineers in a core deep-learning team (pretraining, fine-tuning), interns; ads state 'PhD required'.

SKILLS THEIR ADS ASK FOR

Deep learning (vision) · PyTorch · Self-supervised / 3D · MRI & X-ray · Clinical validation

A RECENT AD

AI Engineer Intern · seen 2026 · Paris

Your angle: Pixyl.Neuro (MS lesions, brain volumes) maps directly onto MRI neuroimaging and MS/neurodegeneration expertise.

How to apply

- Ads on Welcome to the Jungle (company: Gleamer)
- Expect deep-learning and software-engineering interviews
- Ask whether post-doc years count as experience

GOOD TO KNOW

RadNet (DeepHealth) announced the acquisition on 2 Mar 2026 (up to €230M) – ask how the Paris team will evolve.

↗ welcometothejungle.com → Gleamer

Good fit for: P1 P2

Sources: Welcome to the Jungle; Radiology Business · research 8 Oct 2026 · verified 8 Oct 2026

TheraPanacea

France · Paris

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2017	75+ (35% PhDs)	Private, founder-led	English	–

WHAT THEY DO

AI that automates radiotherapy planning (contouring, adaptive therapy); presenting at ESTRO 2026.

WHAT THEY OFFER PEOPLE LIKE US

AI engineers, clinical analysts, clinical customer support, product-delivery engineers – several roles beyond research.

SKILLS THEIR ADS ASK FOR

Image segmentation · Computer vision · Optimisation · Medical physics · MDR / ISO 13485 · V&V testing

A RECENT AD

Research Engineer – Dose calculation · seen 2026 · Paris

Your angle: MRI segmentation and registration skills transfer directly to MR-guided and adaptive radiotherapy contouring.

How to apply

- Ads on Welcome to the Jungle (company: TheraPanacea)
- Clinical-analyst and support roles suit experimentalists
- Pitch: rigour with medical data + communication

GOOD TO KNOW

35% of staff hold PhDs. Current openings lean to QA/regulatory; internships in CV/DL, clinical analysis.

↗ welcometothejungle.com → TheraPanacea

Good fit for: P1 P2 P3

Sources: Welcome to the Jungle · research 8 Oct 2026 · verified 8 Oct 2026

Owkin

France · Paris

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2016	325 before 2025 cuts	VC-backed (>$300M raised)	English	Paris, flexible

WHAT THEY DO

AI for biology and drug discovery; builds agentic 'AI scientist' tools for biomedical researchers; spun off diagnostics as Waiv.

WHAT THEY OFFER PEOPLE LIKE US

ML / research engineers, software engineers, early-talent internships; academic R&D experience accepted.

SKILLS THEIR ADS ASK FOR

Python / PyTorch · LLM agents · Diffusion / flow matching · Histopathology data · Spatial omics · Linux, Git

A RECENT AD

Senior AI Scientist · Jul 2026 · Paris / remote UK, DE

Your angle: Multimodal patient-data modelling and explaining models to biologists match neuro PhDs with ML + biology fluency.

How to apply

- Job board: job-boards.eu.greenhouse.io/owkin (job alerts available)
- Academic research counts as experience in their ads
- Check team stability in interviews

GOOD TO KNOW

~50 posts cut Sep 2025; diagnostics spun out as Waiv ($33M, Mar 2026). Research internships (flow matching) 2026.

↗ job-boards.eu.greenhouse.io/owkin

Good fit for: P1 · Switch

Sources: Greenhouse; Maddyness · research 8 Oct 2026 · verified 8 Oct 2026

Kitware Europe

France Lyon (Villeurbanne)

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2010 (Europe)	**Group ~200**	**Kitware Inc. (private)**	**French + English**	**On-site, ≤2 remote days**

WHAT THEY DO

Open-source scientific software company behind VTK, ITK, ParaView and 3D Slicer; medical computing, visualisation and computer vision.

WHAT THEY OFFER PEOPLE LIKE US

Scientific software, medical-imaging and computer-vision engineers (permanent, on-site); Master, engineer or PhD accepted.

SKILLS THEIR ADS ASK FOR

C++ · Python · VTK / ParaView · ITK / 3D Slicer · vtk.js / trame · 3D rendering

A RECENT AD

C++ developer, scientific visualisation (CDI, €35–42k) · Mar 2024 · Villeurbanne

Your angle: Neuroimaging pipelines built on ITK / 3D Slicer / VTK and open-source contributions map onto their medical division.

How to apply

- Openings on kitware.eu and Wellfound
- Best route: contribute to 3D Slicer / ITK / VTK first
- On-site in Lyon

GOOD TO KNOW

Accepts 'Master, engineer or doctorate'. No Lyon ad online in Oct 2026 – apply speculatively (jobs@kitware.fr per ads).

↗ kitware.eu

Good fit for: **P1** **P2**

Sources: Kitware posts; Wellfound · research 8 Oct 2026 · verified 8 Oct 2026

Meta – Brain & AI (FAIR) and Reality Labs

France | Paris

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
FAIR Paris 2015	Team size not public	Meta Platforms	English	On-site, Paris

WHAT THEY DO

FAIR's Brain & AI team decodes and models brain activity (MEG, EEG, fMRI) – e.g., Brain2Qwerty, TRIBE v2; Reality Labs Paris decodes wrist EMG.

WHAT THEY OFFER PEOPLE LIKE US

Research scientists and engineers; collaborations with CNRS/Inria researchers. Extremely selective.

SKILLS THEIR ADS ASK FOR

Python / PyTorch | MEG / EEG / fMRI decoding | EMG signal processing | GPU / HPC | Experiment design | Papers

A RECENT AD

Research Scientist Intern, Neuroscience / AI (FAIR Brain & AI) · seen 2026 · Paris

Your angle: MEG/EEG/fMRI decoding, encoding models and EMG/motor neuroscience are the core research of both teams.

How to apply

- metacareers.com (filter: Paris, research)
- Realistic route: build on their open code and datasets, publish, collaborate
- Treat as aspirational

GOOD TO KNOW

Internships 12–24 weeks; CIFRE PhDs at FAIR Paris. Meta cut ~600 AI roles incl. FAIR in Oct 2025.

↗ metacareers.com

Good fit for: P1 P2

Sources: Meta AI blog; arXiv 2506.19141; R&D World · research 8 Oct 2026 · verified 8 Oct 2026

Mistral AI

France Paris (+ London)

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2023	**~350 (2025)**	**VC (€1.7B Series C, 2025)**	**English**	**On-site**

WHAT THEY DO

Europe's leading large-language-model company (open and commercial models); deploys AI in companies such as CMA CGM in Marseille.

WHAT THEY OFFER PEOPLE LIKE US

Research engineers, applied-AI / forward-deployed ML engineers, software engineers, internships.

SKILLS THEIR ADS ASK FOR

Python / PyTorch · LLM fine-tuning · RAG & agents · APIs & integration · GPU clusters · Client communication

A RECENT AD

Forward Deployed ML Engineer – EMEA · seen 2026 · Paris … incl. Marseille

Your angle: Python/PyTorch modelling, careful evaluation and explaining complex methods to non-experts fit applied-AI work.

How to apply

- mistral.ai/careers
- Strong coding and ML-engineering bar
- Forward-deployed roles mix ML with client work

GOOD TO KNOW

Marseille is listed as a forward-deployed location (2026). PhD internships: 'AI Scientist – Paris (Internship PhD)'.

↗ mistral.ai/careers

Good fit for: **P1** **Switch**

Capital Fund Management (CFM)

France · Paris

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
1991	~350	Private, partner-run	English	–

WHAT THEY DO

Quantitative hedge fund founded by physicists: statistical models of financial markets.

WHAT THEY OFFER PEOPLE LIKE US

Quantitative researchers, research engineers, research internships.

SKILLS THEIR ADS ASK FOR

Python / pandas · Statistics · Time series · Applied ML · Econometrics · Linux

A RECENT AD

Quantitative Economics researcher · seen 2026 · Paris

Your angle: Noisy time-series analysis, inference and model validation from computational neuroscience transfer to quant research.

How to apply

- Ads on Welcome to the Jungle (company: Capital Fund Management)
- Modellers and statisticians welcome; demanding interviews
- An option for those leaving neuroscience

GOOD TO KNOW

Academic culture (CFM Foundation for Research, physicist-led). Research ads ask a PhD; internships exist.

↗ welcometothejungle.com → CFM

Good fit for: P1 Switch

Sources: Welcome to the Jungle · research 8 Oct 2026 · verified 8 Oct 2026

Banook Group (incl. Keosys)

France · Nancy / Nantes

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
1999	~120 (2024)	Motion Equity Partners	French + English	Mostly on-site

WHAT THEY DO

CRO group running central imaging 'core labs' for clinical trials; Keosys provides imaging software and image-review services.

WHAT THEY OFFER PEOPLE LIKE US

Imaging analysts, clinical project managers, imaging-software roles.

SKILLS THEIR ADS ASK FOR

Imaging QC · Clinical trials (GCP/ICH) · Project management · SOPs & quality · CTMS tools · French + English

A RECENT AD

Project Manager · seen 2026 · Montréal (also Munich)

Your angle: MRI/PET acquisition, QC and quantitative analysis plus trial-endpoint knowledge map onto central-imaging roles.

How to apply

- banook.com / banookgroup.com (careers section)
- Imaging QC and analysis roles need rigour more than coding
- Similar employers: IXICO, Clario, Calyx, Median iCRO

GOOD TO KNOW

Only French imaging core lab with its own platform (Keosys IMAGYS); no imaging-scientist ad in 2026 – network in.

↗ banook.com

Good fit for: P2 P3

Sources: Banook site; Cambon Partners · research 8 Oct 2026 · verified 8 Oct 2026

Synchron

International · New York (+ Australia)

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2016	~180	VC ($200M Series D, 2025)	English	On-site (research)

WHAT THEY DO

Brain–computer interface implanted through blood vessels (Stentrode); running FOCUS trials in Canada and Australia (2026).

WHAT THEY OFFER PEOPLE LIKE US

Research scientists (BCI), ML and electrical engineers, field BCI specialists and clinical implant specialists.

SKILLS THEIR ADS ASK FOR

Python / PyTorch · Neural decoding · ECoG / EEG / EMG · Real-time inference · C++ · IEC 62304 / ISO 13485

A RECENT AD

Research Scientist, BCI · May 2026 · Brooklyn, NY

Your angle: Neural decoding, electrophysiology, motor neuroscience and clinical-study work with patients map directly onto BCI research.

How to apply

- job-boards.greenhouse.io/synchron (also Khosla Ventures job board)
- Field roles work with patients – suit experimentalists
- No visa sponsorship in 2026 research ads

GOOD TO KNOW

Research Scientist ad: PhD required, $150–220k + equity – but 'unable to offer visa sponsorship'.

↗ job-boards.greenhouse.io/synchron

Good fit for: P1 P2 P3

Sources: ClinicalTrials.gov; Khosla job board · research 8 Oct 2026 · verified 8 Oct 2026

Precision Neuroscience

International · New York / Santa Clara

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2021	~120	VC ($250M Series D, Sep 2026)	English	On-site NYC / Santa Clara

WHAT THEY DO

Thin-film cortical interface (Layer 7) with FDA clearance for up to 30 days; building speech and motor decoding.

WHAT THEY OFFER PEOPLE LIKE US

Staff ML engineers/scientists, staff neuroscientists, ML open call; published salary bands.

SKILLS THEIR ADS ASK FOR

Python / MATLAB / C++ · Neural signal processing · High-density ECoG · BCI decoding · Statistics · FDA (Class III)

A RECENT AD

Staff Neuroscientist · May 2026 · New York / Santa Clara

Your angle: ECoG analysis, cortical mapping, population dynamics and human-subject study design are core to its neuroscience roles.

How to apply

- careers.kula.ai/precision-neuroscience
- Post-doc research counts as experience
- Must already be authorised to work in the US

GOOD TO KNOW

>100 patient procedures (Sep 2026). Only candidates already authorised to work in the US are considered.

↗ careers.kula.ai/precision-neuroscience

Good fit for: P1 P2

Sources: Precision careers; B Capital job board · research 8 Oct 2026 · verified 8 Oct 2026

Flow Neuroscience

International · Malmö, Sweden

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2016	~30	VC (~$10M raised)	English	Hybrid (Malmö / London)

WHAT THEY DO

At-home transcranial direct-current stimulation (tDCS) headset plus app for depression; FDA-approved, US launch in Sept 2026.

WHAT THEY OFFER PEOPLE LIKE US

Clinical, data and neurotech roles in a growing EU company.

SKILLS THEIR ADS ASK FOR

tDCS / brain stimulation · Clinical evidence · ISO 13485 / IEC 62304 · FDA & EU MDR · Product analytics · Python / Django

A RECENT AD

Senior Medical Device Quality & Regulatory Engineer · seen 2026 · Malmö or London

Your angle: Brain-stimulation physiology, depression-trial design and outcome analysis map onto clinical, medical-affairs and evidence roles.

How to apply

- careers.flowneuroscience.com
- EU employer – no visa for EU citizens
- Pitch: brain stimulation, clinical studies, data

GOOD TO KNOW

FDA approval (Dec 2025) and US launch (Sep 2026) – growth phase, but small team with few openings.

↗ careers.flowneuroscience.com

Good fit for: P1 P2 P3

Sources: HIT Consultant (Sept 2026) · research 8 Oct 2026 · verified 8 Oct 2026

Wyss Center for Bio and Neuroengineering

International Geneva · non-profit

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2014	**60 (2026)**	**Non-profit (Wyss philanthropy)**	**English (C1); French a plus**	**On-site, Geneva**

WHAT THEY DO

Non-profit centre turning neurotechnology research into products (AI-guided neuromodulation, minimally invasive interfaces); six spin-offs in two years.

WHAT THEY OFFER PEOPLE LIKE US

Engineers, data scientists, translational scientists (about 60 staff).

SKILLS THEIR ADS ASK FOR

Neurophysiology · Neural recording / BCI · Optogenetics · Hardware development · Data & image analysis · Molecular biology

A RECENT AD

Research Scientist, Molecular Biologist · Dec 2025 (closed) · Campus Biotech, Geneva

Your angle: Neurophysiology, BCI and translational neuroscience fit its venture-building and preclinical R&D teams.

How to apply

- Careers page on wysscenter.ch (hosted on Lucca)
- Swiss permit needed for non-EU/EFTA nationals
- Bridge between academia and start-ups

GOOD TO KNOW

Venture builder: many roles sit in its spin-offs (ABILITY Neurotech, Clee Medical). 2-year contracts seen.

↗ wysscenter.ch

Good fit for: **P1** **P2**

Sources: Wyss Center release (Jun 2026) · research 8 Oct 2026 · verified 8 Oct 2026

icometrix (GE HealthCare)

International · Leuven, Belgium

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2011	~60 (2024)	GE HealthCare (since Nov 2025)	English	Hybrid possible

WHAT THEY DO

icobrain: AI that quantifies brain MRI/CT for MS, dementia and Alzheimer-therapy side-effects (ARIA); acquired by GE HealthCare in Nov 2025.

WHAT THEY OFFER PEOPLE LIKE US

Neuroimaging scientists, clinical-trial imaging, software roles.

SKILLS THEIR ADS ASK FOR

Python · Docker / CI-CD · AWS, Linux · DICOM · MRI segmentation · ISO 13485 / IEC 62304

A RECENT AD

Software Engineer – Medical Devices · seen 2026 · Wilsele (Leuven)

Your angle: MS/dementia MRI biomarkers, lesion segmentation and volumetry are icobrain's core – a direct match for quantitative neuroimagers.

How to apply

- icometrix.com and GE HealthCare careers
- EU employer – no visa for EU citizens
- Pitch: MS / dementia imaging biomarkers

GOOD TO KNOW

Now part of GE HealthCare – also watch GE HealthCare careers for icobrain roles.

↗ icometrix.com

Good fit for: P1 P2 P3

Sources: GE HealthCare release (Sept 2025) · research 8 Oct 2026 · verified 8 Oct 2026

Google DeepMind

International London (+ other sites)

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2010	**~6,000 (2025)**	**Alphabet / Google**	**English**	**In-office**

WHAT THEY DO

AI research lab (Gemini and fundamental research, including neuroscience-inspired work).

WHAT THEY OFFER PEOPLE LIKE US

Research scientists and engineers; Student Researcher Program for PhD students.

SKILLS THEIR ADS ASK FOR

Python · JAX / PyTorch · Transformers / LLMs · Distributed training · NeurIPS / ICML papers · NumPy

A RECENT AD

Research Scientist, Pretraining (Gemini Data) · Jun 2026 · Paris

> **Your angle:** Computational neuroscience (RL, memory, representations) fits research roles – but ML engineering and papers are the gate.

How to apply

- deepmind.google/careers (incl. Student Researcher Program)
- Very selective: publications + strong engineering
- UK visa needed for non-UK nationals

GOOD TO KNOW

Paris RS ad: €104–107k + 15% bonus + equity. Student Researcher Program (12–24 wks; Paris/Grenoble track).

↗ deepmind.google/careers

Good fit for: **P1**

Sources: DeepMind careers pages · research 8 Oct 2026 · partly unverified

Allen Institute

International

Seattle · non-profit

FOUNDED	SIZE	OWNER / FUNDING	WORKING LANGUAGE	WORK MODE
2003	~825	Non-profit (Allen philanthropy)	English	Hybrid (WA state)

WHAT THEY DO

Non-profit research institute: brain atlases, large open neuroscience datasets and tools.

WHAT THEY OFFER PEOPLE LIKE US

Scientists, scientific software engineers, AI/ML interns.

SKILLS THEIR ADS ASK FOR

Python · R · High-dim. neural data stats · Cloud · Reproducible pipelines · Ephys / ophys (lab)

A RECENT AD

Scientist I, Single-cell Genomics & Bioinformatics · Apr 2026 · Seattle

Your angle: Systems/computational neuroscience, Python neural-data analysis and open-science practice fit Scientist and Neural Dynamics roles.

How to apply

- alleninstitute.org/careers
- Academic-style science outside universities
- US visa needed

GOOD TO KNOW

Scientist I $86–107k (PhD). Shanahan Fellowship (open to international) and Dynamic Brain summer workshop.

↗ alleninstitute.org/careers

Good fit for: P1 P2

Sources: Allen Institute job listings · research 8 Oct 2026 · partly unverified

Public & non-profit institutes (not private employers)

Organisation	Where	What they do	Website
Research-engineer and data posts; spin-off and collaboration routes			
INT – Institut de Neurosciences de la Timone (incl. BraiNets)	Marseille	Host institute: systems, cognitive and computational neuroscience	int.univ-amu.fr
INS – Institut de Neurosciences des Systèmes	Marseille	Brain dynamics, epilepsy, The Virtual Brain	ins-amu.fr
CRMBM / CERIMED	Marseille	MRI/MRS methods incl. 7T	crmbm.univ-amu.fr
Inria – Sophia Antipolis / Côte d'Azur centre	Sophia Antipolis	Computer science & applied maths	inria.fr
3IA Côte d'Azur (Université Côte d'Azur)	Sophia Antipolis / Nice	AI for health and smart territories	univ-cotedazur.fr
CEA Cadarache	Saint-Paul-lez-Durance	Energy research	cea.fr
ITER Organization	Saint-Paul-lez-Durance	Fusion experiment	iter.org
AP-HM (Marseille university hospitals) – health data	Marseille	Health data warehouse and clinical research	fr.ap-hm.fr
ICM – Paris Brain Institute	Paris	Neuroscience institute with data, engineering and an incubator (iPEPS)	institutducerveau-icm.org
CEA NeuroSpin / Inria MIND	Saclay	Ultra-high-field MRI; brain decoding and ML (Inria MIND)	joliot.cea.fr
Institut Pasteur (computational biology)	Paris	Bioinformatics and imaging hubs	pasteur.fr
EBRAINS	Brussels / distributed	Brain-research infrastructure (incl. The Virtual Brain)	ebrains.eu
EMBL (Heidelberg; Grenoble outstation)	Heidelberg / Grenoble	Molecular biology, imaging, data science	embl.org
CNRS / university engineer careers (IE/IR, BAP E)	France-wide	Permanent research-engineer jobs in data, software and instrumentation via annual concours	cnrs.fr
